Ethics and Discourse is the philosophical journal of the International Network for Discourse Ethics (RED). It is published twice a year.

The purpose of this publication is to disseminate the discussion about discourse ethics, the transcendental and universal pragmatics and the theory of deliberative democracy by the means of articles, critical studies, discussions, translations and book reviews on topics that have an explicit link with this framework in all its expressions (this relationship can be interpretive, critical or a development of both discourse ethics itself or its more general theoretical framework etc.)

Previously published articles are accepted only in exceptional cases. The work should not be submitted simultaneously to other publications. The manuscripts will be published only if they are accepted by two external experts in a double-blind procedure.

The journal publishes papers in the following languages: Spanish, German, French, English, Italian and Portuguese.

The articles will have a length of between 5,000 and 10,000 words (including notes and bibliography), the book reviews up to 1500 words and the critical reviews a maximum of 3,000 words.

The articles should be sent as an email-attachment to the following address: eticadiscursiva@gmail.com
